Dearest DGC,

I hope this message finds you well! As promised, we have some follow-up items to share:

1. Here is the link to the **CDI #13 updates**. Please review the notes for each team.
 1. In addition, I am drafting a **DGC report** that we (your SLDS team) will provide monthly/bimonthly to Executive Leadership.
2. Thank you for your participation and feedback on the **Stay and Stray activity**! We will continue to look for more engaging ways to present CDI updates at our next work sessions.
3. Our next DGC work sessions will be at **Hyatt Regency, Chamolinian Room** (the calendar invite has been updated).
4. **9 out of 11 members completed the Evaluation!** If you still need to submit a response for last week's session, here's the link: <https://forms.gle/C4fHoMBJ1ab1SFJn9>

Thank you for what you've given to this community and for the impactful work you've done and continue to do to make a positive difference for PSS. It has been wonderful to serve you as your (temporary) facilitator and we look forward to continuing to support you as members of our network!

Onward, and with warmest regards always,

Annette

Good Morning George.

Forwarding the update for the DGC work session. There is a strong need expressed by the DGC to update the Executive Leadership team with the CDIs for their support. An example shared is the procurement and IT joint project with ACAS to develop a process to physically destroy hardware, and how ACAS was not aware of the CDIs teams have been working on related to this.

I am attaching a file that has a format for demonstrating the need. It can be a standing ppt or file, with a cover, one CDI per page/slide, and an acknowledgments page at the end.

1. **Challenge:** Describe the CDI, the programs it affects, and the urgency for its resolution (use your CDI identification file for support)
2. **Solution** (or Proposed Solution for ongoing CDIs): Describe the solutions and provide photos of the solutions (e.g., ransomware posters, Data Breach flowchart)
3. **Results:** Describe what has come from the solution (e.g., the need for a data destruction policy, and training on FERPA).

A simplified presentation that gets updated every other month or every quarter will suffice.

If there are other ideas, examples, or resources you have, please share!

Thanks and stay safe everyone.
