

STAY SAFE ONLINE

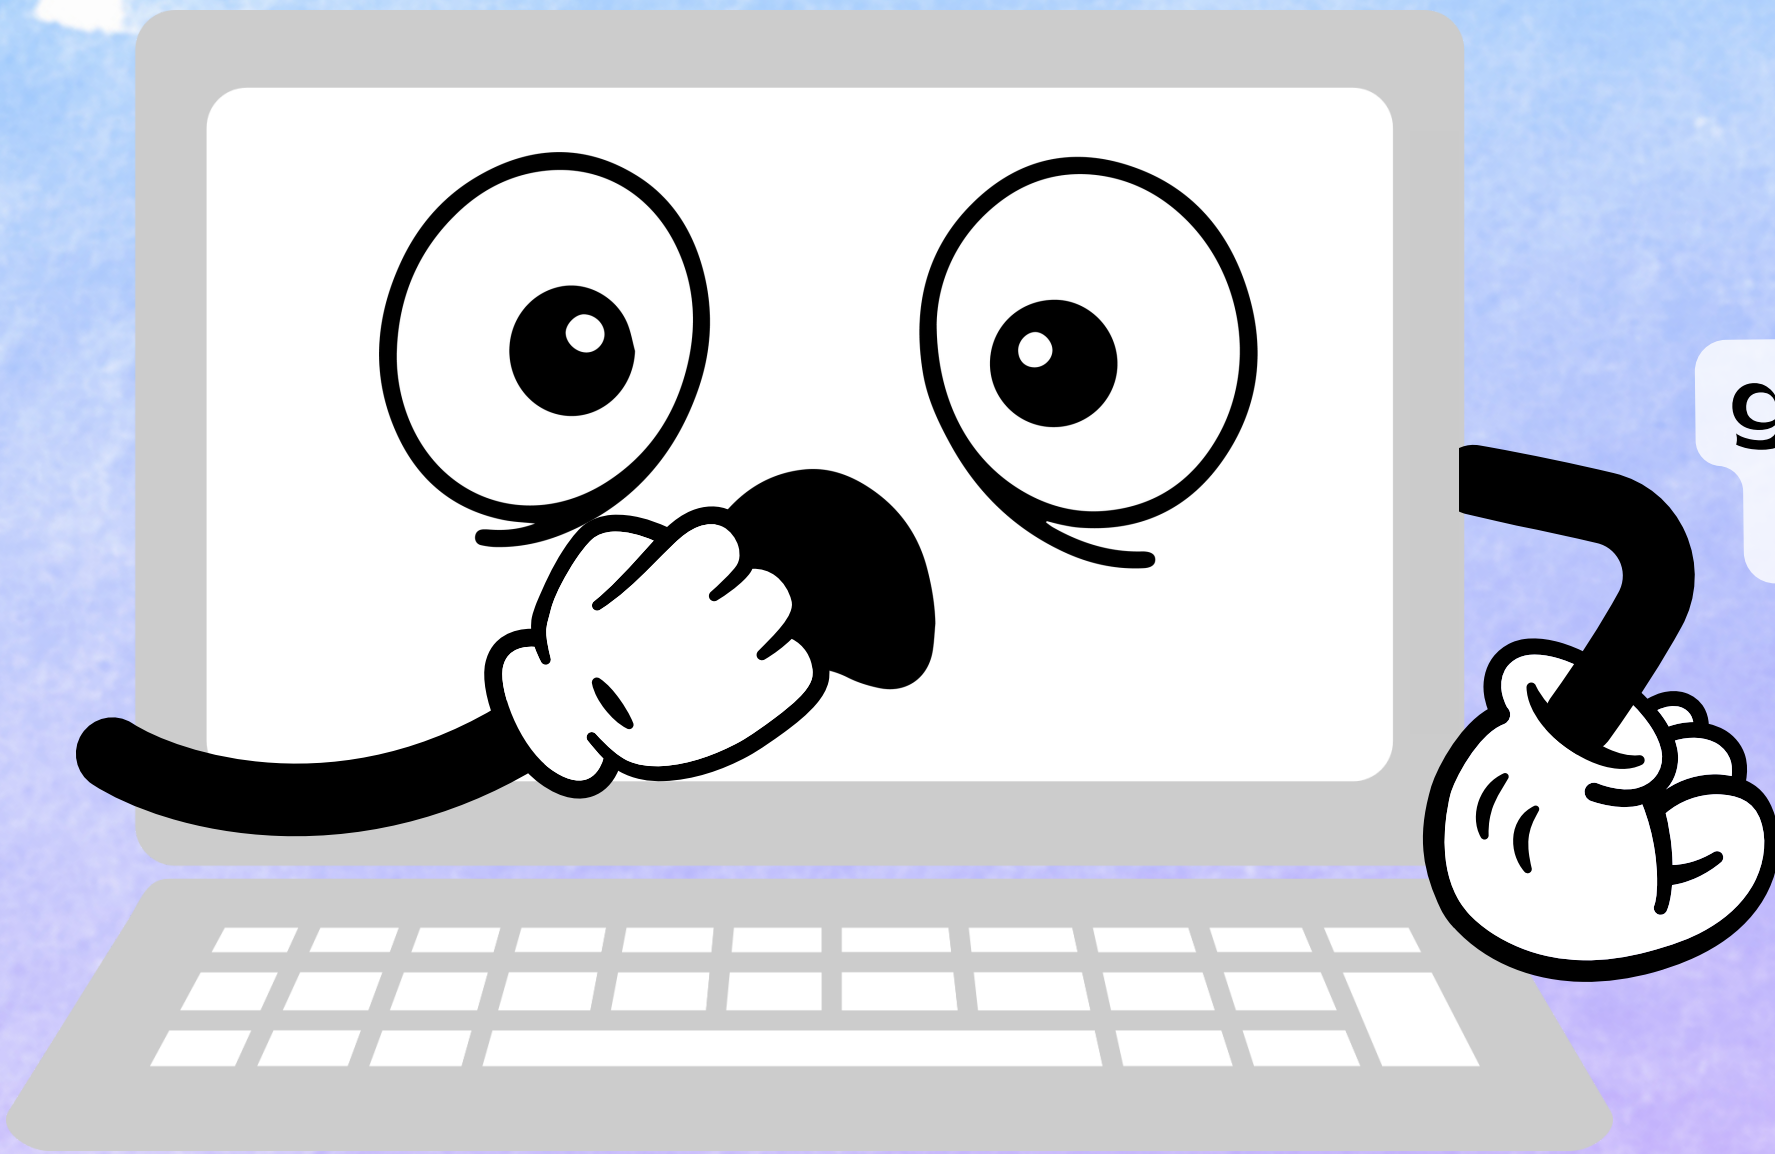

Be a Cyber Hero!
Protect your computer like
a pro!

Don't trust or believe emails, messages and websites from people you don't know.

Stay away from clicking on any links or downloading stuff (like games!) without first asking an adult.

If your files get locked up and you can't even open them, let a trusted adult or teacher know.

Stay Alert! If your computer starts acting weird, like moving slow as a snail, tell an adult right away.

Bad people can steal your information and pretend to be you!

Remember, it's always better to play it safe and ask for help if something's not right.
